# The "Yeo" Waterproof

for riding and general wear.

THE "Yeo" Coat was specially designed and introduced by us to meet in an effective manner the requirements of the Horseman generally. Of the many commendations received we quote the following:

"One day a few weeks ago I was riding through the Burgess Pass in the Canadian Rockies. It rained in sheets for hours but the "Yeo" Coat you made me kept me bone dry."—A.M.S.

Although fitted with fan-piece at back, leg loops, and pommel strap for saddle wear, it answers admirably for general purposes too. The "Yeo" is also made for ladies, and is illustrated in our Ladies' Catalogue.

In our No. 22 cloth (a finely woven cloth, biscuit fawn in colour, light in weight but very strong) the price is 90/-

When ordering a "Yeo" Coat please state height and chest measure and send remittance (which will be returned promptly if the coat is not approved), or give home address and business (not banker's) reference.

Write for illustrated list and patterns of handsome new waterproof tweeds, browns, greys, bronze-greens.

**I**T is now nearly 100 years since "RUFF'S GUIDE" was first published, and throughout that period it has ever held the premier position in the literature of the Turf, not only as the most useful and reliable work of its kind, but also for its handiness and, compared with its value, its low price.

The present issue, the Winter Edition of 1920, will, it is hoped, be found at least equal to its predecessors. Its contents have again been rendered more comprehensive and complete than ever, and the claim may still be made for it that, within the scope of a single volume, the new "RUFF" contains more information of value to sportsmen than any other book or series of books published in connection with our national sport.

Reference to the book itself will substantiate this claim, and it is not necessary to enumerate the contents in detail.

The tables of Principal Stallions with fees, and average price of yearlings sold, are of inestimable value to breeders of bloodstock. The record of past racing in all its branches is as complete as heretofore, and the Nominations for 1921 have been indexed with the usual care. That unique statistical table, "The Winning Record," which has cost much labour in its compilation, is an invaluable aid in the calculations of weights and penalties; from it the racing student will find that the amount won in stakes in 1920 was £704,463 *fs.*, which is a record.

A List of the Dams of Winners in 1920, a recent addition, has been rendered more comprehensive by the inclusion of the sires of the mares, and will be found of immense value to breeders.

The indexing of the meetings under Jockey Club Rules has become a work of considerable magnitude, but every care has been taken to ensure accuracy in this as in other respects.

The system of page-to-page reference, and all the other features for which "RUFF" has been so long famous, will be found included in the present volume, and, in view of the mass of information contained therein, readers will, it is confidently hoped, once more endorse the claim that it is not only the best but the cheapest Guide to the Turf ever issued. No other work published embraces anything like the number of subjects which are here dealt with.

The Proprietor regrets that owing to the greatly increased cost of production it has been found necessary to advance the price of the book to Fifteen Shillings, but even at this figure "Ruff" is the cheapest publication of its kind on the market.
